## STUDENTS

First name	Last name	Subject and start year	Special interest	Email address
Erica	Appiah	Medical Sciences (2025)	Providing links with international science labs for students to experience short term work experience and for large to collaborate particularly for diseases pertinent to those regions.	Quee5084@ox.ac.uk
Martin	Buttenschoen	Statistics (2022)	I am considering joining a start-up after I graduate, most likely as a founding engineer. I would like to meet people that I can keep in touch with and when the time comes to negotiate a work contract reach out with questions.	martin@buttenschoen.uk

Chase	Fellows	PPE (2025)	As an aspiring entrepreneur and venture capitalist, I am interested in the start-up entrepreneur space. My foundation the Alzheimer's coalition demonstrates my belief in the transformative power of initiative. In the era of a burgeoning AI technological revolution, I cannot wait to hear the words of wisdom these business leaders have to share on how to use this tool along with its powerful productivity-boosting capabilities.	Cfellows2006@gmail.com
Tresor	Nsengiyumva	PPE (2025)	I am a co-founder of a fashion, tech and events company called FLYSenga and I have more ideas in mind.	Quee5135@queens.ox.ac.uk
Yuxuan	Zhang	Materials (2025)	I seek opportunities to apply advanced computational optics techniques from frontier scientific discoveries to medical or augmented reality purposes.	Yuxuan.zhang@queens.ox.ac.uk
